

First steps in writing: Writing ladders

These are little stories which the student creates using a lot of help. They can fill the blanks in with anything they like, there are no right or wrong answers, although it would be useful to focus on spelling and correctly forming the shape of the letters.

These little stories are designed to start out easy and become more complicated, and to compliment other work on phonics. You can write them into the spaces in this book or write them out for the student to fill in the blanks elsewhere, or you could use these with word flash cards instead of writing, if your child doesn't write.

Writing ladder 1: Bee

Bee can fly. Bee can see. _____, bee! Bee says _____.
